DEVELOPPEUR WEB FULL STACK

About me:

Passionate about web development, I leverage my rigor and creativity to create innovative digital solutions. My career, marked by a military background rich in responsibilities, has enabled me to develop strong skills in project management, leadership, and rapid adaptation to demanding environments. Today, I specialize in the design and development of high-performance web applications, with a particular focus on user experience and code quality.

Skills:

- Front-end: HTML, CSS, SASS, JavaScript, REACT.
- Back-end: PHP and Object-Oriented PHP (PHPOO), SQL, Symfony.
- Tools: Git/GitHub, Linux (Ubuntu), SEO.
- Design: Prototyping with Figma.
- Project Management: Planning, task tracking, meeting deadlines, and agile collaboration.
- Hosting: Server configuration with NGINX, web project deployment.

Professional Experiences:

2020 - 2024: Manager of management and coordination

- Planning and execution of complex projects, including the management of multidisciplinary teams.
- Optimization of processes and organizational tools to improve productivity.
- Data analysis and synthesis for effective monitoring of ongoing operations.

2018 - 2020: Project Coordinator

- Management of large teams to achieve strategic objectives.
- Implementation of tailored solutions in emergency contexts (crises, unforeseen events).
- Logistical organization of large-scale projects, with a focus on rapid problem resolution.

2002 - 2018: Trainer and Operations Manager

- Training and supervision of groups in demanding environments, promoting discipline and efficiency.
- Participation in international operations, developing crisis management and intercultural communication skills.
- Organization and coordination of complex projects in sensitive contexts.

Additional Certifications:

- Level V "Operational Management Assistant": Team and Project Management.
- Level V "Recruitment Assessment Officer": Conducting Interviews and Profile Analysis.
- Crisis Management Techniques and Risk Prevention.
